www.gelighting.com/eu

 **GE Lighting** provides a broad range of products and services throughout the world.

Providing solutions for commercial, industrial and residential use in more than 100 countries, GE Lighting uses innovative technologies and “Ecoimagination”, a GE initiative to aggressively bring to market new technologies that help customers and consumers meet pressing environmental challenges.

GE Lighting is one of the largest suppliers of light sources in the world. We provide state-of-the-art technology and are able to offer a full range of incandescent lamps, Fluorescent lighting products, Halogen, HID, Compact fluorescent, LED and Automotive lamps. GE has played a leading role in Automotive Lighting for many years. Nowadays we are able to offer a full range of vehicle lamps operating on either 12V or 24V systems. The automotive product range produced in Europe – which is included in this catalogue – is sold all over the world, both for original equipment use and for use in the aftermarket. Upon request a separate catalogue is available on the GE Lighting North American Automotive range.

 **GE Lighting** bietet Ihnen eine weltweit breite Palette von Produkten und Dienstleistungen.

GE Lighting bietet Lösungen für Gewerbe, Industrie und private Haushalte in mehr als 100 Ländern. GE Lighting bietet innovative Technologie und “Ecoimagination”, eine Initiative von GE, um mit neuen Technologien die Herausforderungen für eine saubere Umwelt zu meistern.

GE Lighting ist einer der größten Hersteller von Lichtquellen mit modernster Technologie und bietet das gesamte Spektrum an Glüh-, Halogen-, Leuchtstoff-, Kompaktleuchtstoff-, LED- und Gasentladungslampen einschließlich Automobilbeleuchtung. GE hatte von Anfang an eine führende Rolle in der Automobilbeleuchtung und bietet heute ein breites Spektrum im 12V und 24V Segment, sowohl für die Erstausrüstung als auch für den Aftermarket. Die Produktpalette für Automobilbeleuchtung in diesem Katalog wird überwiegend in Europa hergestellt. Auf Anfrage senden wir gerne einen Katalog von GE Lighting Nord Amerika für die Automobilbeleuchtung.

 **GE Lighting** fornisce una vasta gamma di prodotti e servizi in tutto il mondo.

Fornisce soluzioni per l'uso in attività commerciali, industriali e residenziali, in più di 100 paesi; GE Lighting utilizza tecnologie innovative ed “Ecoimagination”, una aggressiva iniziativa di GE per portare sul mercato nuove tecnologie che aiutino i clienti ed i consumatori a soddisfare le nuove sfide a tutela dell'ambiente. GE Lighting è uno dei maggiori fornitori di sorgenti luminose nel mondo, grazie ad una elevata tecnologia, offre una gamma completa di lampade ad incandescenza, lampade fluorescenti, Alogene, HID, fluorescenti compatte LED e lampade Auto.

GE che da sempre svolge un ruolo importante nel mercato “lighting automotive”, oggi offre una gamma completa di lampade per auto in 12V e 24V. La gamma di prodotti, fabbricati in Europa, inclusa nel presente catalogo - è venduta in tutto il mondo, sia per il mercato del primo equipaggiamento (OEM) che per il mercato del ricambio. Su richiesta, è disponibile anche un catalogo di lampade auto GE per il mercato nord-americano.

 **GE Lighting** fournit une gamme très large de produits et de services dans le monde.

Ces produits et solutions sont vendus dans plus de 100 pays pour les marchés du secteur secondaire et tertiaire, ainsi que pour celui de la consommation en utilisant des process innovants.

“Ecoimagination” est une initiative de GE pour apporter des nouvelles technologies sur le marché d'une façon dynamique pour aider ses clients et les consommateurs à gagner face aux défis environnementaux.

GE Lighting est un des plus importants fabricants de sources d'éclairage dans le monde fournissant des produits les plus modernes dans une gamme très large des lampes à incandescence, les tubes fluo, des lampes halogène LED et fluo-compactes, les lampes à décharge et les lampes auto.

GE a joué un rôle important dans le domaine de l'éclairage automobile dès le début et offre une gamme très large en 12V et 24V. Ces sont les lampes destinées à l'Europe qui sont présentées dans ce catalogue mais vous pouvez avoir - sur demande - un catalogue spécial pour les lampes du marché nord-américain. Les lampes figurant dans ces catalogues sont vendues mondialement aussi bien pour la première monte que pour le marché de la rechange.

 **GE Lighting** ofrece una amplia gama de productos y servicios en todo el mundo. A la vez también proporciona

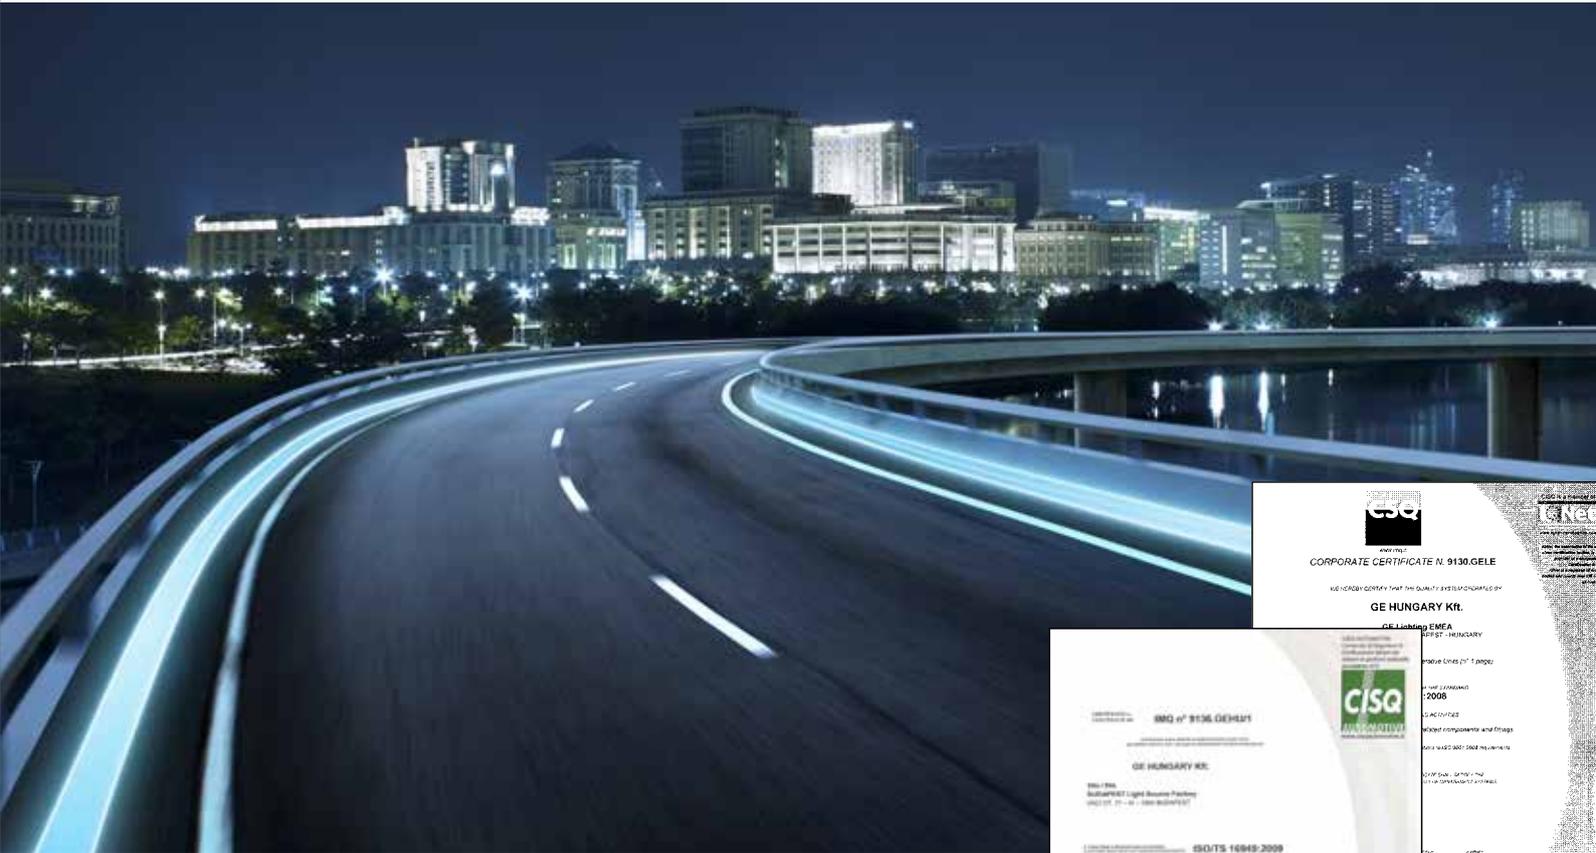

soluciones para empresas comerciales, industriales así como de hogar en más de 100 países.

GE Lighting utiliza tecnologías innovadoras, y entre ellas está “Ecoimagination”, una iniciativa de GE que pretende introducir en el mercado nuevas tecnologías que puedan ayudar a los clientes y consumidores a realizar cambios importantes y de mejora en el medio ambiente.

GE Lighting es uno de los más importantes proveedores de fuentes de luz en el mundo con la tecnología más avanzada, ofreciendo una gama completa de lámparas incandescentes, así como productos de iluminación fluorescente, halógenas, HID, fluorescencia compacta LED y lámparas de automoción.

GE ha desempeñado desde su inicio un papel de liderazgo en la iluminación del automóvil. Actualmente estamos ofreciendo una gama completa de lámparas para automoción en 12V y 24V. La gama de productos para automoción que fabricamos – y que se incluye en el presente catálogo - se vende en todo el mundo tanto para uso en equipo original (primer equipo OEM) así como para el mercado del recambio (AM). También disponemos de un catálogo, que bajo solicitud, podrá comprobar nuestra gama de disponibilidad en lámparas de automoción GE Lighting para el mercado de Norte América.

Certification

 The company is on the Approval list of many of the worlds car manufacturers, where quality and performance are key measurements. The reliability and quality of automotive lamps is ensured by:

- Computer-managed and controlled design process
- Fully automated production lines
- High level of quality assurance system
- Continued investment programs
- A commitment to continuous improvement

 Nos lampes figurent dans les références en homologation de beaucoup de constructeurs dans le monde qui est une reconnaissance de leur qualité et de leur performance. La fiabilité et la qualité sont assurées

- par un procédé de fabrication assisté et contrôlé par ordinateur
- par des lignes de fabrication automatiques
- et par un système de qualité de haut niveau

 Unser Unternehmen befindet sich auf den meisten Freigabelisten der weltweiten Automobilindustrie, dort wird der Schwerpunkt auf Qualität und Leistungsfähigkeit gesetzt. Die verlässliche Qualität der Automobillampen wird erreicht durch

- computergestützte 100% Qualitätskontrolle
- vollautomatische Produktionsverfahren
- hochentwickelte Qualitätssicherungssysteme

 Nuestra compañía está Homologada en la mayoría de fabricantes de automóviles en el ámbito mundial, lo que significa que las medidas de calidad son claves. La fiabilidad en la calidad de nuestras lámparas de automoción está garantizada por:

- Control total del diseño de proceso por ordenador.
- Líneas de producción totalmente automáticas.
- Los más estrictos controles de calidad.

 L'azienda ed i suoi prodotti sono omologati dai principali costruttori di automobili di tutto il mondo per i quali la qualità e le prestazioni sono parametri fondamentali. L'affidabilità e qualità delle nostre lampade auto sono garantite da:

- Controllo gestione computerizzata totale del processo di sviluppo del prodotto
- linee di produzione completamente automatizzate
- elevato livello di sistema di garanzia della qualità.

 ISO 9001, ISO TS 16949 and ISO 14001 quality system certification

 ECE compliance, homologation

 Global OEM customer base

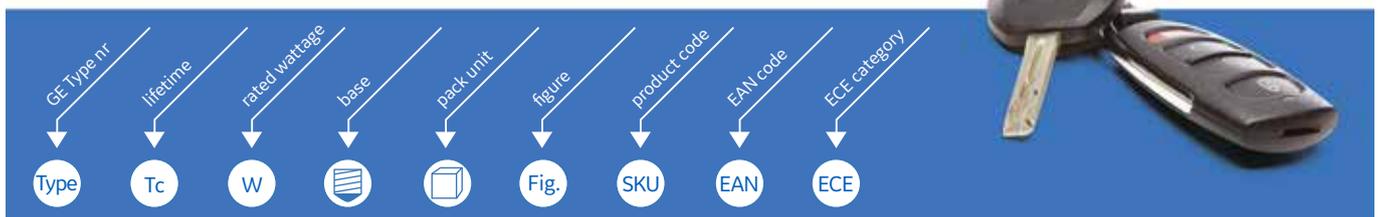

EoLV, ROHS compliance

Xenon High Intensity Discharge lamps

GE 5500K* D1 & D2 lamps White Xensation

- Thanks to our latest lighting technology, GE Xensation lamps provide a major leap in road safety over conventional halogen lamps due to enormous increase in the illuminated field of vision.
- Better visibility and illumination- the light emitted provides the driver with many benefits. It assists the human eye and allows better visibility and improved hazard awareness, allowing the driver to navigate poor driving conditions with increased confidence and with less fatigue.
- Lower power consumption – 35W only instead of 55W (ordinary halogen lamp power consumption).
- Better durability – excellent vibration and shock resistance giving significantly greater reliability.
- Optically advantageous whiter light compared to halogen lamps designed to give a colour that is closer to natural daylight.

Light up the road with style and brilliant white light

Up to 20% more light on the road - maximum illuminance

- Produces a crisp, bright light that is closer to daylight.
- Better visibility in extreme weather conditions, higher visibility in peripheral areas.
- Less fatigue effect during night driving.

5500 kelvin

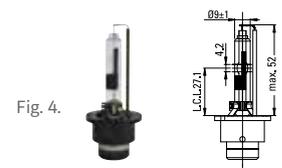

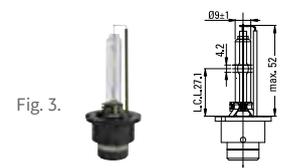

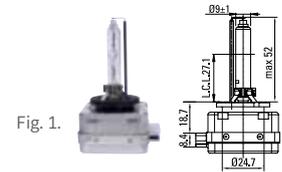

4200 kelvin

* Colour temperature exceeds 5500K in majority of life time.

Halogen headlight lamps

lighting your way...

As well as the basic range, GE automotive also offers the premium range, based on special lamp designs. The premium range includes: Megalight Ultra +120, Megalight Ultra +90, Megalight Plus, Sportlight, Extra Life, Heavy Star, Rally. The premium lamps have additional benefits in terms of life, colour, vibration resistance or wattage.

The premium lamps are also E1 marked, making their use on the EU roads possible, with the exception of Rally lamps that were designed for off-road usage. Extra life lamps have enhanced life, Megalight Plus and Ultra lamps possess increased luminance, Sportlight halogen lamps give intense blue-white light.

Colour temperature-luminance-life comparisons for the premium range.

UPGRADE your car with GE premium lamps

The special quartz glass used for GE automotive lamps cuts the UV component of light, it means that GE automotive lamps can safely be used in plastic reflectors without the risk of discoloration.

Megalight Ultra +130

Up to 130% more light on the road

Optimized for breakthrough performance -
Maximum light on the road

- Brightest, whitest halogen headlight lamp - continues to meet and exceed the highest performance levels.
- Safer, easier night driving, with better reflections from road markings and signs.

Bis zu 130 % mehr Licht auf der Straße

Optimiert für bahnbrechende Leistung -
Maximales Licht auf der Straße

- Die hellste und weißeste halogene Scheinwerferlampe – erfüllt und überschreitet weiterhin die höchsten Leistungsniveaus.
- Sicheres und einfacheres Nachtfahren mit besseren Reflexionen von Straßenmarkierungen und Zeichen

Fino al 130% di luce in piu' sulla strada

Ottimizzata per performance avanzate - Massima luminosita' sulla strada.

- Lampada piu' bianca, piu' brillante - Soddisfa e supera i piu' alti livelli di performance.
- Guida notturna piu' facile, sicura, con maggiore visibilita' della segnaletica stradale.

Jusqu'à 130% plus de lumière sur la route

Conception optimisée -
Intensité lumineuse maximale

- Lampe la plus intense en terme de luminosité, lumière la plus blanche - brillante
- Améliore la sécurité de votre conduite de nuit, meilleure réflexions des panneaux de signalization et marques routières

Hasta un 130% más de luz en la carretera

Optimizado para un rendimiento innovador -
Máxima iluminación en la carretera

- Lámpara más brillante y blanca en faros halógenos - En continuo desarrollo para satisfacer y superar los más altos niveles de rendimiento.
- Mayor seguridad y facilidad en conducción nocturna. Mejora la visualización de la señalización vial.

* **Tc (hour)** is the time up to which 63,2 % of tested lamps have ended their lives. Measured according to GE life test specification. The life of the lamp is sensitive to the operation voltage of the car, 1% of change of the voltage results in 12-15% change of life with opposite sign.

Megalight Ultra +120

Up to 120% more light on the road

New level of performance - optimized design with 100% xenon gas fill.

- Most intense and powerful lamp in terms of luminance, for safer driving
- Improved headlamp illumination level helps in reduction of accidents at night time/in poor visibility conditions

Bis zu 120% mehr Licht auf der Straße

Neues Leistungsniveau – Prozessoptimiertes Design mit 100 %-iger Xenongasfüllung.

- Intensivste und Leistungsstärkste Lampe in Bezug auf Helligkeit, sorgt für sicheres Fahren
- Erhöht die Lichtintensität des Scheinwerfers und verringert somit die Unfallgefahr bei Dunkelheit
- Verbesserte Lichtintensität hilft bei der Verringerung von Unfällen in der Nacht und bei schlechten Sichtverhältnissen

Fino al 120% di luce in piu' sulla strada

Nuovo livello di performance – disegno ottimizzato con il 100% di gas Xenon.

- La lampada fornisce una luce piu' potente ed intensa, per una guida piu' sicura
- Un miglior livello di illuminazione proiettata sulla strada contribuisce a ridurre potenziali incidenti in caso di ridotta visibilità.

Jusqu' à 120% plus de lumière sur la route

Niveau de performance supérieure - conception optimisée, remplie 100% de gaz xénon.

- Lampe la plus intense en terme de luminosité pour la sécurité de votre conduite
- Le niveau d'illumination accrue des projecteurs aide à diminuer les accidents pendant la nuit et lorsque la visibilité est mauvaise.

Hasta un 120% más de luz en carretera

Un nivel más elevado de rendimiento – diseño mejorado con un 100% de gas xenon.

- Con más fuerza e intensidad, en términos de luminosidad, para obtener una conducción más segura
- La mejora del nivel de iluminación en las lámparas principales ayuda en la reducción de accidentes nocturnos o en condiciones de mala visibilidad

Extra Life

Extended long lifetime

Double the life of standard bulbs

- Suitable for Daytime Running Light (DRL) use
- Ensures safe driving during day and night

Verlängerte Lebensdauer / Superlonglife

Lebensdauerverdoppelung gegenüber Standardglühlampen

- Besonders geeignet auch als Tagfahrlichtlampen-Generation (DRL)
- Sorgt für sicheres Fahren bei Tag und bei Nacht

Lunga durata

Doppia durata rispetto alle tradizionali lampadine

- Ideale come lampadine DRL (Daytime Running Light)
- Garantisce una guida sicura durante il giorno e la notte

Durée de vie extra longue

Double la vie des lampes standard

- Convenable pour l'utilisation DRL
- Pour conduire en sécurité - spécialement conçues pour la conduite de jour comme de nuit

Vida útil prolongada

Duplica la vida útil de las bombillas estándar

- Adecuada para su uso como luz diurna (DRL)
- Garantiza una conducción segura día y noche

Adjustable LED Daytime Running Lamp

Maximum, instant visibility

What is DRL?

DRL: Daytime Running Lights

Lamps are an **automotive lighting device**.

They are mounted in pairs on the front of a motor vehicle and are **constantly switched on while driving**.

The device is designed to illuminate a well-defined light pattern in order to **improve vehicle visibility** during daylight conditions.

Why DRL?

Many countries have encouraged or required daytime use of low-beam headlamps. After 2011 In EU all new car platforms will come with dedicated DRL units. **Existing car owners have the option to install DRL units** available on the aftermarket to increase vehicle conspicuity, **utilizing these instead of the required low beams**.

Adding daytime light to **existing cars** is beneficial from many aspects: safety, environment, fuel consumption.

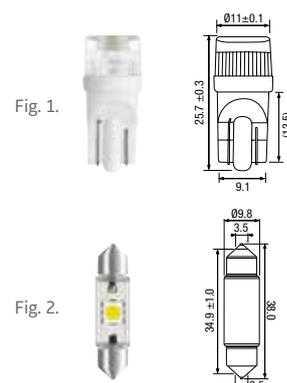

LED DRL vs Low beam used as DRL

- Designed for DRL function
- Energy efficient
- Excellent visibility
- Long life - up to 10x longer operating time when compared to standard Halogen systems

GE auto aftermarket pack concept

GE Lighting – has been a leading supplier to Automotive OEM and Aftermarket customers throughout the world for many decades. We continue our pioneering work to offer advanced solutions and benefits that can fulfill our customers' needs.

Our brand is the symbol of our heritage, and of the quality and trust we have delivered to our customers. It embodies our commitment to anticipate and meet their changing needs. It represents the imagination we use to address those needs in a manner that reflects our values.

As a result of continuous efforts to fulfill our customers' changing needs - GE has developed the aftermarket packaging concept. The main objective of our redesigned packaging is to enhance the shopping experience and drive upsell.

GE twinbox/display pack

Translation of the premium feature/ benefit explanation in 11 languages.

GE 10-way pack

GE Blister

Our redesigned blister pack has the following advantages:

GLOBAL: packages reflect a “world view”, display the elements of environmental and regulatory requirements, use multiple languages

TRUSTED: make the purchase easier and clearer, simplified messaging that is repeated on all platforms

PRECISE: package information is clear and states features prominently

APPROACHABLE, SIMPLE: Easy to understand and right for the purchaser, helping them to decide which product is good for them. Provides differentiation between standard range and premium ranges by using color coding.

Info circle with simplified nr. that allows quick search/identification in the GE lampguide. Clear and simple information on the specific product

description of the lamp function in 10 languages

country of origin in 22 languages

safety pictograms

original equipment logo + translation in 8 languages, emphasizing GE OEM presence

lamp drawing with E-mark

Colour coded packages tied directly to POS messaging for easy identification:

STANDARD range - describe the standard categories, D2 discharge, 12V-24V halogen and miniature lamps

PREMIUM range with feature/benefit logo, explain how one product differs from another, and why it is most appropriate for its task - rationalize the move to upsell in the halogen and miniature lamp categories

Standard ranges

-  D2 gas discharge lamps
-  12V halogen and miniature lamps
-  24V halogen and miniature lamps

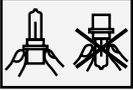

Premium ranges

-  Megalight ultra +130
-  Megalight ultra +120
-  Megalight ultra +90
-  Megalight plus 50
-  Spotlight
-  Spotlight Ultra
-  Extra life
-  Heavy Star
-  Rally
-  Motorcycle

Imagination at work

GE Lighting is constantly developing and improving its products. For this reason, all product descriptions in this catalogue are intended as a general guide, and we may change specifications from time to time in the interest of product development, without prior notification or public announcement. All descriptions in this publication present only general particulars of the goods to which they refer and shall not form part of any contract. Data in this guide has been obtained in controlled experimental conditions. However, GE Lighting cannot accept any liability arising from the reliance on such data to the extent permitted by law.

All lamp drawings are a guide, if further technical details are required please contact your nearest sales office.

General conditions of sale

GE Lighting products are supplied according to GE's General Conditions of Sale. If you require a copy of these conditions please contact your nearest GE Lighting sales office.

Prices

A price list is available from all GE Lighting sales offices.
